WISCONSIN CLUB PRESIDENT'S REPORT

*"Dedicated to the Unity, Sociability, &
Good Fellowship of all BMW Owners."*

That is our mission statement and that is what we had at the club picnic Saturday, at Harnischfeger Park. The turnout was great, the weather could not have been better, and the diversity of the attendees (and bikes) really sum up what our club is all about. I think we should do more events like this. Thank you, Mona.

The recent warm weather has been a blessing and I hope everyone has been able to take advantage. But all good things must come to an end and now comes the rain. This too will pass and, I hope, will usher in more pleasant fall weather, and extend the riding season.

I am planning to lead a ride on November 5. I haven't finalized the details as of this writing but will post on the web site, Facebook page, and announce it at the upcoming November meeting. Plan on a late morning start. The rest will depend on upcoming weather reports.

We will reopen nominations for next year's club officers at the upcoming November meeting and may have the opportunity to vote in new members. There will be pizza, courtesy of *Hagerty Insurance, Scott Spoerl Agency*, at 7:00PM before the meeting. Three good reasons to attend the meeting.

Enough for now. Happy Fall riding. See you at the meeting.

Bob Preuss, PRESIDENT

SLIMEY CRUD RUN: FALL EDITION

SUBMITTED BY DICK BURTON

Finally a break in the weather for the fall edition of the Slimey Crud. Cloudy skies to start, but beautiful sunshine later in the day and 60 degree temps. It doesn't get any better than this for fall riding.

Arriving at our new location (seeking some place that's open) only to discover the dining room was also closed for remodeling and we had to walk through the drive thru for service have to find a new corner in the world. There was group of Goldwing riders present also heading out for the run.

By 8:30, the *Black Forest Strudel Riders* included: Bill Ewert, Pineapple, Duane Heins (guest), John Borden, Pete Freyer, Mike McMarthey, Ron Chmill (guest), and yours truly. This was a little smaller group, but we were all on the same page which makes for a great ride.

The ride out to Pine Bluff was overcast to start, with but cleared into a beautiful fall day. Entering town, it was quite apparent the attendance was defiantly back to normal conditions as the parking lots were full to the brim and the quality of some of the restorations were show class... and of course there's always the odd and interesting.

At 11:15 we regrouped in search of curvy roads up and across the Wisconsin River on the way to Leland. The roads west of Madison are great for that. We arrived a little after noon.

Capacity was just starting to build as we a little on the early side, but the town was a bee hive of activity with people lined up at the Sprecher Tap for their world renown "*Wonderbread Sandwiches*" —hard salami, cheese, and wonder bread. They claim its impossible to duplicate these at home. Sure miss *Junior*, the owner who pasted several years ago—they don't make characters like that anymore. He was a prime ingredient of the Crud Run in LeLand.

The local sportsman club always does a great job in the culinary department selling brats with all the trimmings and delicious pork sandwiches. Nobody goes away hungry.

About 1:30, had kicked enough tires and seen it all. Time to hit the road and catch the Packer game.

Next Crud Run 1st Sunday in May...excellent backroads...interesting people...and of course the "*Iron.*" See ya there...

“STOP THE BLEED” CLUB RIDE

There was a small turnout for the stop the bleed ride on October 12. Only three riders were able to make this one, and that makes sense as the weather was looking spotty there for sure.

Dave Luber, Bill Ewert and myself were able to take a nice relaxing ride from Hales Corners down to Kenosha, taking in some of the side roads and spectacular fall colors. The weather down could not have been better for us.

Once in Kenosha we were able to learn what I feel is a pretty important life skill — *Traumatic First Aid.*

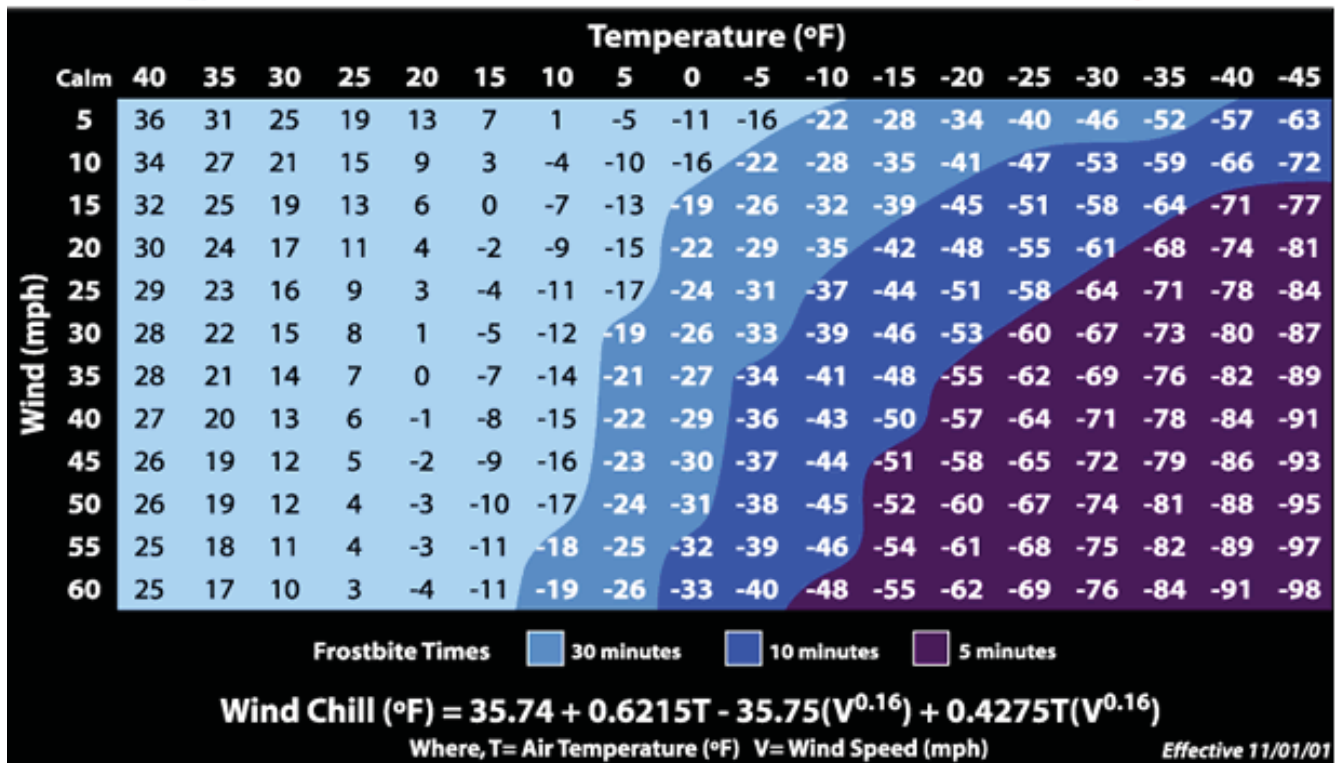

We went over types of wounds and proper treatment of said wounds (including touching on some “self aid” options). I sure hope none of us ever need this training, but it is sure nice to have it just in case.

The ride back was not as nice as the weather just could not hold out any longer and got us a little damp. All and all, a very good trip.

Hmmm.... Translate the wind speed for the speed your traveling at and you'll have an idea of how cold it really is when you're riding.

Note: This doesn't take into affect the combination of your speed & the wind speed.
